FATMAT® RATTLE TRAP SOUND DEADENER – 50 SQ. FT.
This bulk roll of sound deadener by FatMat® is 50 square feet (33 1/2” × 18”) × 80 mil thick. Features self-adhesive backing that is very aggressive and can be installed at almost any temperature. This super-stick formula coating requires no heating to install and is great for exterior noise reduction, insulation, and improves sound system quality. Installation kit—containing roller and instruction sheet—is included. Manufacturer’s lifetime warranty. RATPAK50 | ea | 159.95 |

HEAT SHIELD AND SOUND DEADENER
Quality heat shield insulation gives owners the opportunity to use space-age technology in keeping heat and noise out of their driving and listening environment. Consists of one sheet of 99.5% pure industrial-grade aluminum laminated to ¾” padding, achieving the highest reflection of heat and sound-deadening capabilities.

INSULATOR AND SOUND DEADENER WITH BUBBLE FILM

This reflective foil insulation consists of two layers of polyethylene bubble film sandwiched between two layers of 99.9% pure aluminum foil, making it ½" thick. Temperature range from 60°F to 180°F. Works great for insulating headliners, floor pans, trunk area, door panels, kick panels, etc. Cut and form into needed shapes using scissors and apply with contact cement or weatherstrip adhesive.

DYNAMAT® EXTREME HEAT SHIELD AND SOUND DEADENER

This thermo-acoustic control material will give you a cool, quiet ride. Dynamat® Extreme eliminates road and engine noise, giving your vehicle a new feel. Applying Dynamat® to the sheet metal surrounding your speakers will eliminate speaker distortion, vibration, rattles and squeaks. Easy peel-and-stick application for doors, floor, roof and trunk. Box contains 9 sheets for a total of 36 sq. ft.

AUTO KRAFTERS PRICE MATCH GUARANTEE
We pride ourselves in offering the best quality parts at the lowest prices possible. If our prices are not already lower, we will match any competitor’s price on like-quality parts.

**NOTE:** While we take great care to present the colors as true to the actual color as possible, their accuracy is not guaranteed, due to the limitations of the printing process.
BUMPERS – NEW
Reproductions made from heavy-gauge steel and featuring an OE quality chrome finish. Designed as a direct bolt-on using OE bumper brackets and hardware. 5-year limited rust-through warranty from the manufacturer.

NOTE: These are oversize items; additional shipping charges apply.

Silicone Radiator Hose Set

Set includes upper, lower and bypass hoses. Lower hose features stainless internal spring.

'66 – '69
66 – 68 Fairlane 289, 302; '66 – '69 Ranchero 289 / 302 without A/C; '68 – '69 Torino / Montego 302 / 351 with A/C.

Stainless Steel Engine Hose Clamp Kit

A great way to finish your engine dress-up project. The clamps have the FoMoCo logo stamping (except for 3/8" – 3/4" size) and feature a worm gear design for tightening. They are also sized correctly so there is no excessive “tail” overhang. Kit includes: (2) lower radiator – 2½”; (2) upper radiator – 2”; (6) heater and bypass – ½”; (6) fuel line and sending unit – 3/16” – ½” (not stamped FoMoCo).

Stainless Steel Engine Hose Clamp Kit

Fits most 260 / 289 / 302.

Fan Shroud Mounting Kit

4 screws and 4 nuts. Does not include brackets.

- 5-blade, 17" diameter with ¾" center hole.

Aftermarket

NOTE: When replacing a clutch-type fan, a spacer may be needed.

NOTE: Please check your original fan's diameter, position, and clearance before installing the new fan. Customer is solely responsible for determining suitability of fan. No payment will be made for engine components damaged due to insufficient fan clearance and / or engine movement. No payment will be made for damaged parts. The fan will be replaced for defects in workmanship or materials ONLY. Always measure carefully and check the condition of the engine mounts.

Fan Blade – 17"
High-quality, OE-look, all-steel fan painted silver.
Heavy-duty 35º pitch 17" 6-blade. Can be used as a replacement. Does not include spacers.
V8 ........ 9113 .............. ea ........ 59.95

Flex-A-Lite® Fan Blades
Delivers extra cooling at low engine speed and is easy to install. Extends life of fan belt and water pump. Silver with stainless blades. Standard rotation with an RPM rating of 10,000.
16" ........ 2016 .............. ea ........ 64.95
17" ........ 2017 .............. ea ........ 69.95

FAN SPACERS
Will fit most Ford and Mercury applications.

Warning: After fan is mounted, fan needs to have a minimum clearance of ½" from radiator, pulleys, hoses and belts. Please check for clearance.

Original Style
2.25" spacer with a painted natural finish.
- C8546-225 .............. ea ........ 21.95

Polished Aluminum
1.50" with polished aluminum finish. Required for some small-block and nearly all big-block engines when using a thicker aluminum or 4-row copper/brass radiator. Will not work on vehicles with fan clutch assembly.

86 – 69 '65 – '69 Fairlane 289 with P/S or 38 amp alternator; '66 Fairlane 289 (except 55 amp alternator) with M/S or factory P/S, without T/E; '67 Fairlane 289 M/S or P/S and integral A/C, without T/E; '69 Fairlane / Torino 390GT with S/C and X/C before 1/6/69.

Painted black. 5.82" diameter.

Chrome. 5.875" diameter.

**Double Groove**

63 Meteor 170 with deluxe A/C and X/C with economy A/C; '63 Meteor 200 with standard A/C.

Painted black. 5.82" diameter.

Chrome. 5.875" diameter.

HEATER HOSES

**Original Style**

Black ribbed hoses with correct date codes, except as noted.

68 Fairlane / Torino / Comet. Red Autolite date code. Sold in 8' length.

69 Fairlane / Torino / Comet. Red Autolite date code. Sold in 8' length.

70 Fairlane / Torino / Comet. Yellow Autolite date code. Sold in 8' length.

71 Yellow Autolite date code. Sold in 8' length.

**Universal**

Black with no stripe or date code. Two 4' lengths. 5/8" I.D.

**Silicone**

Orange silicone interior with a black silicone outer layer that promotes longer life and higher resistance to pressure. 391/2" long and 5/8" I.D. No markings on the exterior.

For silicone radiator hose set, see part number C5ZE-8260/86BK on page 101.

**HEATER HOSE CLAMPS**

**Tower Style**

86 – 71 '62 – '71 Fairlane / Torino; '66 – '70 Comet / Montego.

**Bolt-Type Spring Clamp**

With 5/8" heater hose.

# A/C Components

## SANDEN A/C COMPRESSOR CONVERSION KIT

Stop robbing horsepower from your classic V-8 engine when you turn on your air conditioner. A new efficient Sanden rotary compressor will reduce the load on your motor and eliminate half the weight and bulk of a stock compressor. If you drive your classic Ford, this conversion is a must for you. Also, this would be an opportune time to change to R-134a refrigerant. Excellent detail is necessary for a very attractive hood appearance. Kit includes a Sanden compressor, v-belt clutch, all required compressor and idler adapter brackets, hoses, O-rings and oil tube.

**NOTE:** Customer must send in filter drier to be rebuilt and converted to R-134A. Dryer rebuild is not included in kit price. For dryer rebuild see part #FILDRYRB (next column).

Please specify year, make, model, and engine size when ordering.

1-year manufacturer's warranty.

### A/C RECEIVER DRYER

- '72 – '79 with 2 brackets...
- D2OZ-19959A...
- ea...

### A/C FILTER DRYER REBUILD SERVICE

Dryer is cut open, old filters and drying agent are removed, inside and outside are glass-beaded, and new filters are installed. Unit is then Tig-welded back together and pressure tested, capped and painted. 90-day manufacturer’s warranty against leaks.

Please specify R-12 or R-134a refrigerant and year, make and model of your vehicle. Please allow 3 to 4 weeks, plus shipping time, for rebuild.

**NOTE:** Customer must send in core for rebuild.

### A/C ADJUSTABLE IDLERS

- '67 – '68 Fairlane 289, 302 (from 1/3/68 to 1/2/68); Comet 269, 302 (from 1/2/67 to 3/1/68). All with factory-installed A/C, without T/E. Mounts on the right-hand side of the engine...
- '68 – '79 Fairlane (after 3/1/68) 289, 302, 428CJ; Fairlane 302, 351, 390GT, 427, 428CJ; 70 Torino 302, 351, 429; 71 Torino 302, 351, 429CJ; '72 – '79 Torino / Ranchero all 8-cylinder; 68 Comet (after 3/1/68) 289, 302, 428CJ. All with factory integral A/C...

### A/C LINE GROMMETS

At radiator support. Use on evaporator to compressor lines. 1 or 2 pair is used per vehicle, depending on application. All for hang-on A/C

A/C CONDENSERS – REPRODUCTIONS
Judging competition-quality reproduction. Has the same flat extrusion as the original, with one major difference: its 6-circuit coil surpasses the performance of the factory 3-circuit, creating 30% more contact and allowing greater heat transfer. An excellent choice if your original has seen better days or you are upgrading to R134a refrigerant. The condenser is a key to maintaining proper system pressures, cold temperatures, and compressor longevity.

'65
With under-dash dealer-installed A/C.

REPLACEMENT HARMONIC BALancers

Small-block Engines
6.4". Has a 28.4 oz. counterweight and is made to the early short style length. Features both 3- and 4-bolt pulley patterns so either one can be used. 3 sets of timing marks will accommodate the various timing pointer locations that Ford used.

'63 – '69 289, 302, 351W.

FE Engines
7.5". Fits any FE engine. Features a timing pointer that fits where the stock pointer would go allowing you to use this damper if your stock damper was 7". Includes a V-groove pulley for the alternator. Can be used as-is for 1 pulley application. For pre-1968 engines with 2 pulleys, you can bolt your second pulley on top of the supplied pulley. On engines after 1968, remove the supplied pulley and bolt both of your pulleys on to the damper using the supplied spacer.

**HOLLEY® SNIPER EFI THROTTLE BODY CONVERSION KITS**

Self-tuning throttle body conversion kits with handheld EFI monitors. Put an end to cold-start issues, hesitations, vapor lock, and flooding that a carburetor can cause. Bolt-on carburetor replacements.

Features:

- Throttle body-mounted ECU – no extra boxes to mount
- Only 4 wiring connections required! (battery +, battery -, switched ignition, and RPM)
- Internal fuel pressure regulator eliminates the hassle of plumbing an external fuel pressure regulator (preset to 58.5 PSI)
- Integrated ignition timing control and coil driver
- High-resolution full-color touchscreen for initial setup, tuning, and gauge displays
- Simple Calibration Wizard (answer a few questions about the engine, and it creates the base map, then starts tuning on its own) – NO laptop required
- Self-tuning ECU means you don’t have to be a computer /tuning wiz to have EFI
- The included genuine Bosch LSU 4.9 Wideband oxygen sensor provides realtime Fuel Map Learn
- OEM-style TPS/IAC and fuel pressure regulator, for years of dependable service
- Included clamp-on oxygen sensor kit for 2.25" exhaust ensures a leak-free oxygen sensor installation, with stainless steel T-bolt clamps and a stainless steel (weldable) oxygen sensor flange

Installation instructions included.

**NOTE:** Not applicable for Ford or Mercury A/T kick-down.

Holley® FUEL PUMP

7/8 PSI pre-set shut off, 80 GPH (gallons per hour) capacity. Its solid construction is great for continuous high RPM operation. Can be rotated for various plumbing designs. Includes gasket.

NOTE: This product is not legal for sale or use in California, except on pre-1966 model vehicles.

FUEL PUMP MOUNTING GASKET

Aftermarket replacement; not genuine Ford.

Auto Krafters’ catalogs are now available online in PDF format!

Just visit our website at www.autokrafters.com
ELECTRONIC FUEL PUMP – UNIVERSAL
Fits all carburetor-equipped cars. This universal electronic fuel pump is easy to install. Per instructions 12 volt, 4–7 PSI low amp (2 amp @ maximum). Compatible with all fuels and additives. Eliminates vapor lock. Solid-state, two-wire design. Self priming.

'62 – '79

FUEL PUMP BLOCK-OFF PLATE
This chrome plate is used to block the fuel pump mounting hole on the engine block when a vehicle is upgraded from a mechanical fuel pump to an electronic, in-tank pump. Stamped with the Ford oval logo. Mounting hardware and gasket not included.

'63 – '79

FUEL LINES
These reproduction lines are pre-bent using a sample from an original car as a pattern.

Please add “SS” to end of part number when ordering stainless steel.

NOTE: These are custom-made special-order parts that take 2 to 4 weeks for delivery.

NOTE: There is a $10.00 per order boxing fee for these items.

NOTE: Call for fuel lines not listed.

FUEL SENDING UNIT LOCKING RING REMOVAL TOOL

Works on '60 – '85 Ford and Mercury vehicles with 2½" I.D. locking ring. Enables easier removal and installation of the locking ring when replacing the fuel sending unit. Handle provides additional leverage without risk of damage that could otherwise happen when using a hammer and punch. Correct tooth pattern allows for full engagement of locking ring circumference. Made of high-quality steel.

**OVAL SINGLE 4/B AIR CLEANER ASSEMBLIES**
Similar to ones used on Shelbys, Cobras and other high performance Fords of the 1960s. Aluminum tops.

**Natural Finish**
Assembly includes top, oval filter, bottom, and all necessary hardware for installation. Ribbed top.

66 – 67 With single 4/B carburetor. Stock for these years, but will fit other vehicles with a single 4/B carburetor.

$229.95

$249.95
OVAL SINGLE 4/B AIR CLEANER ASSEMBLIES CONTINUED

**Black (Shelby Style)**
Top painted black with sanded edges and lines. Assembly includes bottom single-carburetor plate, air filter, mounting stud, wing nut, aluminum top plate and carburetor spacer collar (trimming may be required).

Dimensions: 21½" long × 10" wide × 2½" high. Measure for clearance on your vehicle.

With single 4/B carburetor.

**Oval Air Cleaner Mounting Bracket Kit**
This kit will mount 1 oval air cleaner to a single 4/B carburetor. Kit includes bracket, two ½" – 20 × 2½" shoulder bolts, one ¼" – 20 × 2" bolt, two wing nuts, and instructions.

**NOTE:** Air cleaner assembly #C3AZ-9600P4 already contains this kit. If you are ordering the assembly, you do not need to order this kit as well.

**Holley® Small Oval Air Cleaner Assembly**
Aftermarket cast-aluminum oval air cleaner with a billet-look, ball-milled top. This low-profile oval air cleaner is 11½" long × 8½" wide × 3½" tall. Fits carburetors with 5½" (5.125") diameter neck. Assembly includes top, oval filter, bottom, and all hardware necessary for installation.

**NOTE:** Not legal for sale or use in California on any pollution-controlled motor vehicles.

**AIR FILTERS (A)**
Fits all 14" air cleaners.

Aftermarket replacement.

Orange. Exact reproduction.

**DUAL EXHAUST SYSTEMS AND H-PIPES**

OE style. Made in the USA using 2" 14-gauge aluminized steel pipe, turbo mufflers similar in appearance to the original. Designed, engineered, and manufactured by an owner-operated professional automotive restoration and exhaust shop. They have extensively test-fit 100% of all of their exhaust products to period-correct cars with multiple engines and manifold combinations for quality control – and they guarantee the fit and quality on all their exhaust systems.

**Exhaust Systems**
Includes 2 intermediate pipes, 2 mufflers, 2 tailpipes, and 6 clamps.

**NOTE:** Hangers are not included. H-pipes are sold separately (see below).

**NOTE:** These are oversize items; additional shipping charges apply.

**MUFFLER-TO-FLOOR PAN BRACKET AND INSULATOR ASSEMBLY**
Features “FoMoCo” and “C8ZA” stamping. Cars with dual exhaust will require two. Official Licensed Ford product.

**Headers**

**Attention California Customers:** California vehicle code sections 27156 and 38391 prohibit the advertising, offering for sale, or installation of any device which modifies a vehicle’s emission control system unless exempted. The headers in this catalog have not received an exemption from these code sections and are not legal for sale or use in California on vehicles originally equipped with catalytic converters. It is illegal—except for racing vehicles which may never be driven upon a highway—to remove or otherwise render inoperative any emission control device on regulated motor vehicles.

**6-CYLINDER HEADER KIT**
This stainless steel exhaust header kit by Auto Dynasty is a 6-2-1, bolt-on design. The long-tube header design allows exhaust gases to flow more freely from each of the 6 cylinders, increasing efficiency and reducing cylinder back-pressure. This improves horsepower / torque, with the added feature of positive performance-exhaust sound. The kit includes the polished chrome exhaust system, gasket and mounting hardware.

| Inlets: | 1.32" × 1.6" oval; outlet: 1.85" |

*NOTE:* The kit does not include instructions. We recommend professional installation of this product.

www.autokrafters.com
HEDMAN® PAINTED HEADERS
Features a painted finish and 16 gauge tubing. Made in the USA.
Lifetime guarantee to the original purchaser. Part must be accompanied by original sales invoice for claim.

NOTE: For vehicles without smog injection or injection heads, and without A.I.R. systems. Considered as OEM replacement parts when existing emission control are not removed from the vehicle.

Shorty
Compact design, making them perfect for low-to-the-ground cars and tight quarters. Built using the finest materials and techniques.
1½” primary tubes and 2½” collectors.

'66 – '73 Fairlane / Torino 260, 289, 302 all with A/C, P/S, and floor-shift A/T. Modification of stock exhaust required to retain catalytic converter. .88400................set.....249.95

Full-Length
Standard-duty headers.
1¾” tube, 3” collector.

'66 – ’67 Fairlane; ’68 – ’71 Torino; ’72 – ’73 Torino/Ranchero. All with 289, 302, 351W. ’66 – ’70 Comet / Montego 289, 302. For all with A/C, M/T or floor-shift C4 A/T.

EXHAUST MANIFOLDS – 8-CYLINDER

'63 – '64 Fairlane 289. Exact reproductions.

'63 – '71 Fairlane / Torino 260, 289, 302.

'69 – '70 428CJ.

Power steering cylinder drop-off bracket

'Square-Douglas' header gaskets

Ti-Y Ceramics

Graphite
Made of graphite facing mechanically bonded to perforated metal. Most suitable for sealing hot exhaust gases.

High-Density Fiber
High-density fiber facing on a perforated steel core, covered with an anti-stick coating. Medium riser with 16 bolt holes in each gasket. Port size: 1.12” × 1.48”. Set of 2.

EXHAUST MANIFOLDS – 6-CYLINDER

'62 – ’65 Fairlane 260, 289 with A/C and power brakes, M/T or A/T (except C6). Will not work with P/S or air injection heads.
Tube size: 1½” to 2” with a 2½” collector.

'69 – '70 Fairlane / Torino / Ranchero / Comet 351W with floor-shift A/T, A/C, P/S.
Tube size: 1¾” to 2½” with a 3” collector.

'62 – '73 170.

'62 – '64 260; ’63 – ’68 289; ’68 – ’79 302 except Boss and Cobra; ’69 – ’79 351W.

'68 – '79 302, 351W.
Can be used for exhaust manifold or header gaskets. Port size: 1.12” × 1.48”. Set of 2.

EXHAUST MANIFOLD / HEADER GASKETS

'68 – '76 68 – '76 Torino; '74 – '76 Ranchero; '70 Cyclone; '70 – ’71 Montego.
All 429 / 460 with standard heads. Made from a high-temperature, acrylic blend material for excellent sealing and durability. Can be trimmed if needed for modified ports.

EXHAUST PORT DIVIDER
Cast-iron port divider designed to correct the flow of No. 3 and 4 exhaust ports to equal that of the other cylinders. By doing so, each cylinder produces an equal amount of power at all RPM points, thus an increase of as much as 10% can be gained. Bond into place with hi-temp epoxy or tack-weld into port.

Engine Wiring / Electrical
NOTE: Electrical parts are non-returnable once installed. We will replace defective units only.
NOTE: We have available a limited number of NOS switches not listed in our catalogs. Please call if you do not find listed the switch you need.

FLAME-THROWER® STOCK-LOOK
CAST-ALUMINUM DISTRIBUTOR
This distributor features a lightweight cast-aluminum housing modeled after the original Motorcraft® distributors. Built with all-new components, not remanufactured parts like the other guys'. No more adjusting points or replacing capacitors—this distributor is equipped with maintenance-free Ignitor® electronics, providing decades of trouble-free operation. Complete with the original Ignitor® and high dielectric-strength cap and rotor with brass contacts, so it’s ready to run right out of the box. Also features a hardened gear, ground to exact tolerances for precise meshing with the cam; adjustable vacuum-advance canister that provides extra tunability; optimized phasing that ensures maximum energy to the spark plug; and tailored advance curve for optimal performance and drivability.

'62 – '74 221, 260, 289, 302 without factory electronic ignition. ..........D134600...............ea........212.10
**FLAME-THROWER® BILLET DISTRIBUTORS**

D130700

These plug-and-play distributors allow you to upgrade outdated points or stock electronic distributors to a performance-proven distributor featuring the patented Ignitor II® electronic ignition module and a CNC-machined 6061 T-6 polished billet housing and deck.

Compatible with any inductive ignition system coil, but high-RPM performance can be improved when used with a low-resistance (0.6 ohm) Flame-Thrower II® coil. Compatible with multi-spark CD ignition box.

Additional features include a tempered .500” diameter shaft with low-torsion displacement; an upper roller bearing and lower self-lubricating oil-impregnated copper powder metal bushing, and a durable machined heat-treated gear. Distributors come with a factory-set performance curve, a mechanical advance-limiting Black cap.

**IGNITOR ELECTRONIC IGNITION SYSTEMS CONTINUED**

**Ignitor I**

Improvement over points in current fall time for increased coil output. Features rotating cobalt magnets which trigger a Hall Effect integrated circuit. Will trigger most multi-spark CD ignitions. Available for 6- and 12-volt negative and positive ground systems.

Use with Flame-Thrower® 40,000-volt coil for optimal performance.

- ’62 – ’72 V8 with dual-point distributor.
  - Without vacuum... 1281D, ea... 95.96
  - With vacuum... 1281DV, ea... 91.06
- ’62 – ’74 V8 with single-point distributor.
  - 1281, ea... 89.95
- ’62 – ’74 6-cylinder (except V6) with single-point Motorcraft® distributor.
  - 1261, ea... 89.95
- ’63 – ’67 6-cylinder (except V6) with single-point Holley distributor.

**Ignitor II**

Like the Ignitor I but smarter. It senses coil current levels and uses a powerful microcontroller to control dwell period for the best possible spark over the entire RPM range, reducing misfires and improving engine performance. Develops up to 4 times more energy between 3,000 and 5,000 RPMs than standard ignition systems. Peak current level is reached just prior to spark for maximum energy without heat buildup, increasing coil and module life. Adjusts spark timing at higher RPMs to compensate for the inherent electronic delay. Senses startup and develops more energy for quicker, easier starting. Built-in reverse polarity and over-current protection shuts down the system, preventing component damage.

Use with Flame-Thrower® 45,000-volt coil for optimal performance.

- ’62 – ’72 V8 with dual-point distributor.

  - 91266, ea... 126.39

**Ignitor III**

Upgrades even more than other Ignitor I® and II® by adding thermal-clad construction, integrated adjustable rev limiter with LED feedback, and multi-spark ignition.

Use with Flame-Thrower III® coils (part #44001 or part #44401) for optimal performance.

- ’62 –’74 8-cylinder with single-point Motorcraft® distributor.

- 71281, ea... 149.95

**IGNITOR® POWER RELAY KIT**

Most vehicles are equipped with OE resistant wires or ballast resistors. When using the Ignitor II® and Ignitor III® ignition systems, they require a full +12V power connection between the ignition switch and the positive coil terminal. To get the full benefit of the PerTronix high-performance ignition system, the primary resistance needs to be eliminated or by-passed. In most cases, it is easier to add the PerTronix ignition power relay rather than cutting into the vehicle’s wiring harness and replacing wires.

Kit includes: 30-amp auto relay, relay socket and harness, 3-amp 400-volt diode, mounting screw, and connectors. Comes with easy-to-follow instructions that include an 800-number tech line for additional help.

- ’60 –’70 PR30A, kit... 39.95

DIGITAL HP IGNITION BOXES

The Digital HP ignition box represents the latest innovation in ignition technology. Its ultra-small form factor (4.18" long, 5.75" wide and 1.65" high) provides more installation options, and the simple dial interface accommodates quick and easy adjustments.

This ignition box features:
- 187 milli-Joules of spark energy
- multiple spark all the way to redline
- on-board diagnostics and tach calibration
- integrated 3-step digital rev limiter (burnout limit, launch control and fatal over rev protection)
- RPM-activated trigger (accurately controls shift lights, solenoids and other RPM devices)
- adjustable start retard and locking Molex connector.

50 state emissions legal – CARB E.O. #D-57-37.

Specifications:
- Operating voltage: 9–22 volts, cranking voltage: 8–22 volts
- Current draw: 1.2A per 1000 RPM
- Input triggers: Points, Electronic, or Mag
- Output voltage: 530 volts, output energy: Up to 187 mJ primary
- Multi-spark window: Up to 20 crank degrees
- Start retard: 0–18 degrees / 500–1,400 RPM.
- Mounting bolt pattern is 3.5" x 3.25".

For recommended coils, see part #60100, 44001, or 44011 (next column).

NOTE: Electrical parts are non-returnable once installed. We will replace defective units only.

90-day manufacturer's warranty.

6063 T5 Aluminum heat sink with anodized corrosion-resistant finish

8.0 mm HEI Wires

For use with HEI distributors part # D1350 and D1352 (see page 132).

'62 – '76  '62 – '70 Fairlane; '68 – '76 Torino / Ranchero; '68 – '71 Montego; '66 – '69 Comet; all with 8-cylinder engine.
Blue. Features 2 current paths for redundancy and reliability.

'Small-block 8-cylinder.

'62 – '79

40,000 volts.

Flame Thrower®

Flame-Thrower® III 6- or 8-Cylinder

45,000 volts, 0.32 ohms resistance.

For use with Ignitor III® ignition system (part #71281 on page 132).

Flame Thrower® HP

This HP (high power) 50,000 volt E-core coil is specifically designed for use with the PerTronix Digital HP ignition.

It features:
- highly efficient epoxy filled E-core design
- vacuum-potted body for longer life and increased reliability
- 6063 T5 aluminum heat sink with anodized corrosion-resistant finish
- precision-machined male high-tension terminal and brass primary terminals

Maximum voltage 50,000, Primary resistance 0.2 ohms.

Suitable for 4-, 6- and 8-cylinder engines when using the PerTronix Digital HP ignition box. Legal in all 50 states and Canada (C.A.R.B. E.O. #D-57-21).

For HP ignition box, see part #510 or #512 (in previous column).

For use with Ignitor III® ignition system (part #71281 on page 132).

TK0413A... kit 19.95

WIRING HARNESS UPDATE KITS
Includes everything you need to modernize your classic vehicle. These kits include:

• new ignition switch with indexed connector
• all hardware supplied
• new ignition switch with indexed connector
• standard turn signal flasher, hazard flasher, and horn relay mounted on harness
• original switch connector bodies
• steering column connectors that will plug directly into most aftermarket steering columns or stock period Ford and Mercury using the adapters and terminals included in the kit
• instrument cluster wiring designed with a “cluster harness disconnect” for easy service and assembly.

All original terminals, connectors, light sockets, correct printed circuit board connections, and locking nuts are also supplied for original cluster gauges. With the disconnect system, any aftermarket gauge cluster package can be easily and neatly wired in. Flexibility in harness design allows for original or custom routing.

Front lighting includes extra-long leads when that custom under-hood appearance is desired. All light terminal, connector, and sockets are provided as well as a switch trigger wire for electric fan relay.

Engine wiring includes connectors for original points-type as well as HEI distributors. A heavy-gauge alternator feed and fusible link are also included for any typical high-output 1-wire or internally-regulated alternator.

Separate under-dash courtesy light assemblies are also included for use with your original dome / interior light feeds. New dimmer switch is provided. Wires and connections accommodate original floor-mounted dimmer switch. New headlight extension harness, and new door jamb switches / leads are also included.

Made in the USA.

NOTE: Kits are intended for modified cars, but may be used for restoration. Kits are not compatible with factory A/C systems; they are compatible only with aftermarket A/C systems and factory heater systems. Kits come with complete instructions, but we strongly recommend a full understanding of wiring before attempting installation. Please review instructions before ordering. Returns will not be accepted once the wiring is unpacked.

'62 – '65 Fairlane.

Kit also includes:

• 2 fuse box mounting pads
• adjustable-length headlight switch shaft and custom knob... 510553.... kit 764.10

'66 – '67 Fairlane / Comet.

Kit also includes:

• harness that is laid out and formed to allow for nearly all aftermarket accessories;
• rear body harness assembly that plugs into the main harness at the left kick panel location with longer leads that allow for stock or custom routing of the wires.
• rear body wiring that includes back-up light, brake light and taillight, license plate light, and fuel sender lead wires and connectors
